PERFORMANCE MARKETING MANAGER

Growth & User Acquisition · Ad Tech · Data Science

Data-driven performance marketer with **5+ years** across user acquisition, paid media, and growth strategy. Cut CPI by 65% at ShareChat and led multi-crore IPL & WPL campaigns at JioStar. Specialise in end-to-end tracking pipelines, LTV/CAC optimization, and AI-driven creative testing — backed by a Data Science foundation in Python & SQL.

EXPERIENCE

Senior Ad Operations

Nov 2025 – Present

JioStar · Mumbai

- › Ran pilot CPI install campaigns on Blaze & Moloco DSP with GAM 360, improving cost-per-install efficiency 35%+ in the first quarter.
- › Led a 5-member cross-functional team across multi-crore IPL & WPL inventories with 100% on-time delivery.
- › Optimised ad yield and delivery models, lifting fill rates and driving incremental QoQ revenue.
- › Built performance reports across AppsFlyer, Adjust & Sizmek MMPs, surfacing bottlenecks that reshaped budget allocation.

Ad Operations Executive

Feb 2023 – Nov 2025

JioStar · Mumbai

- › Managed premium live placements during IPL, WPL & Domestic Series for Pepsi, Coca-Cola, Hitachi & Durex — zero delivery errors on high-stakes inventory.
- › Acted as Zone Lead POC, bridging sales, product & tech to resolve escalations and ensure seamless delivery.
- › Managed impression/click trackers via Sizmek, DCM, Innovid & AppsFlyer for precise multi-brand attribution.
- › Partnered with product & engineering to integrate new ad formats, expanding monetisation opportunities.

User Acquisition Executive

Dec 2020 – Feb 2023

ShareChat (MTPL) · Bangalore

- › Drove a 65% CPI reduction by redesigning audience segmentation and bidding across Google UAC & the ShareChat Ad Network.
- › Ran rigorous creative & targeting A/B tests, lifting CTR 30%+ and improving downstream conversion.
- › Managed global campaigns with DCM, AppsFlyer & Branch attribution across multi-touch journeys.
- › Co-developed region-tailored creatives with product, adding a 20% lift in Day-7 retention.

INDEPENDENT PROJECT

Performance Marketing Pipeline & Lead Gen Optimization

Jan 2026 – Present

GTM · Apps Script · Google Ads · Meta Ads · Webhooks

- › Architected end-to-end marketing pipelines with GTM and custom Apps Scripts, resolving attribution drop-offs and lifting lead-tracking accuracy ~40%.
- › Ran high-intent Google Ads lead-gen with continuous competitor keyword analysis, cutting CPL 25% while holding lead quality.
- › Tested AI-generated product photography and fashion models in ad creative, reporting ROI findings to stakeholders.

KEY WINS

Attribution rebuild — GTM + webhook pipeline recovered ~40% of previously unmeasured conversions.

AI creative pioneer — one of the earliest AI-generated product-photography tests in performance marketing; presented ROI to C-suite.

Zero-escalation delivery — 4 consecutive IPL/WPL seasons at multi-crore scale.
